

Getting your tickets.

We're trying to make our services greener but we're going to need your help in doing so.

Step 1 – Once you've purchased your ticket, you'll receive an email confirmation with your tickets attached. These E-tickets can simply be brought along to the show on your smartphone. We'll scan it and bingo, you're on your way to seeing a show, and helping us save the planet!

Step 2 – We get it. Smart phones are difficult but never fear, your e-ticket can also be printed! How good is that? Print it off, bring it along and we'll scan you in as normal. Spare a thought for the poor trees though.

Step 3 – Some people just can't get away from the old fashioned, ticket in your hands. If this is you, then feel free to pop into our Box Office from December onwards. We'll happily print your ticket off for you there (and give you a lesson in technology whilst we're at it).

If December doesn't suit you or maybe you've bought the tickets as the *best* gift for a loved one, then one of our team will happily print them off for you at our Festival Box Office.

There you have it! The three simple steps to getting your tickets. It couldn't be easier!

[Festival Office](#) Open Mon – Fri, 10am until 4pm.
