

DUMFRIES COMMUNITY LOTTERY

Electric Theatre Workshop Limited
Gambling Awareness Statement
Updated September 2020

There are a number of different ways that we implement to protect vulnerable persons. These include:

- Enforcing limits on the amount that individual players can spend
- Self-Exclusion; we would operate a self-exclusion programme in line with the UK Gambling Commission that would allow any supporters to self-exclude themselves from your lottery
- Train on situations where players / potential players may be vulnerable, and have an appropriate policy and process to outline how this would be handled
- Ensure that the lottery, in terms and conditions, all lottery marketing and promotional materials and websites are both Gambling Commission compliant and sensitive to these issues
