

Covid guidelines for practitioners (correct as of 17/06/21)

Due to D&G being in Covid Projection Level 1 we must follow the current guidelines set in place by the Scottish Government.

Workshop Planning

Children under 12 are not subject to covid restrictions.

Those between 12+ will have to have the following restrictions in place:

- Masks to be worn during any physical activity using the space, ie dance/drama rehearsal, masks must be worn. This does not apply to workshops in which workstations with social distancing are implemented, though masks must be worn when not at their workstations.
- Group work is to be kept to a maximum of groups of 5, ideally kept down to pairs or threes
- Equipment sharing to be kept to minimum, ideally equipment should be assigned to individual participants
- Noise levels to be kept to a minimum, encouraging talking at lower volumes and discouraging shouting, screaming etc where possible

Working in the Space

- Practitioners are required to wear masks unless exempt or working at a socially distanced workstation, though masks must be worn when working

directly with participants or moving around the space. This is also applied when working with participants under 12

- When moving through different spaces in the Hub masks must be worn
- One way system is in place for moving through the Hub and must be followed
- Hands are to be washed/sanitized regularly when possible and close contact with participants is to be kept to be avoided where possible, at minimum start of the day, between sessions and end of the day
- Windows are to remain open during sessions to allow for optimal ventilation, these should be open already for the start of the day, any issues with these please raise with Hub staff to ensure a quick resolution
- Children are not allowed to go to the toilet in groups, this to help ensure that we can follow safety/sanitation procedures and keep track of participants' locations throughout the session
